Individual Services:

Winding onto cone \$2.00 per pound picked weight

Blending (Fiber provided by customer) \$4.00 per pound picked weight

Blending (Fiber provided by Edwards Woolworks Mill) \$4.00/per pound picked weight plus the cost of the fiber being added predicated upon what we paid for it.

Please note: for yarn the diameter of the yarn (number of wraps) per inch will vary based upon the breed, seasonal health and individual characteristics of the animal. We strongly recommend that you include a sample of the yarn size you want if you are processing from fleece to yarn. If you are processing to yarn you can ignore Price 1. We do NOT charge both fees. It's one or the other. If you choose yarn then the prep work (tumble, wash, pick, card ect) is included in the yarn price. Blending actions that are NOT actually mill blending include but are not limited to combining multiple fleeces to produce a blended yarn. Combining two different colored fleeces from your order to produce a color variant roving or yarn. Mill blending is the addition of a fiber to your fleeces to improve strength, cohesion or add color not found within your fleeces.

A billing example:

- 1) 10 lbs of wool comes in to be made into roving. It is filled with VM. The cost will be 10x17.50=\$175.00
- 2) 10 lbs of clean wool comes in to be made into yarn. After processing into a cloud it weights @ 8.2 pounds (customer wants 2 ply sport yarn. The TOTAL cost is \$246.00
- 3) 40 pounds of Alpaca comes in. After tumbling, washing, picking it weighs 36 pounds. Sport 2 ply is then \$35x36=\$1260 The industry standard is to use a LFS/dehairer if you choose to add that service the bill is \$45x36 pounds for superior yarn.

Unless arrangements are made any items left unpaid for more than 30 days after the scheduled pickup date becomes property of the mill to offset the cost of processing. If you have a sudden financial hardship let us know...we are more than willing to work with you.

*** We are NOT like other mills. There are no hidden charges. For anything not listed ask us-we will do our best to accommodate all fiber producers and artisans. These prices are good until Dec 31, 2023. ***
